Education

Expected in 03.2026

- Bachelor's, Computer Science, University of El Oued - El Oued, Algeria
- Professional Diploma : **Car Electricity and Diagnostics** [2022]
- Frontend Development Courses Completed on udemy

Professional Summary

Hey there! I'm a second-year CS bachelor's student diving into the world of web development for a year now. My passion for crafting user-friendly interfaces and my growing interest in software engineering have got me hooked on becoming a front-end developer or a software engineer. Alongside my studies, I hold a diploma in car diagnostics and electricity, and I've even interned at a local workshop. My journey is all about honing my skills, pushing my boundaries, and propelling my career forward.

Skills

- | | |
|----------------|------------------|
| Next-js | My-sql |
| Git | Socket-io |
| C++ (beginner) | Scss , PureCss |
| Firebase | Problume solving |
